With a background spanning over 30 years, Josephine Viscito started her career in dog training in New York City, where she worked with some of the City's toughest dogs. She has successfully trained dogs that other Trainers could not train, and has solved problems that other Trainers gave up on.

Jo has trained dogs for obedience, trials, special needs, the movies and for personal protection, but mostly she trains dogs to be loving companions and well-behaved members of human families, **like yours!**

Services

Jo's Six-Week Home Course

\$390.00 (Approximately 7 sessions)

Josephine comes to your home, where you and your dog learn. First, Jo will teach your dog their weekly lesson. They will be taught to *sit*, to *stay*, to *come*, to *lie down*, to *stay down*, and to *heel*. Each week Jo will then teach you (the Owner) the correct practice techniques for homework. At the end of the course your dog will respond to you - the Owner. *House Training and Problem Correction guidance are included.*

Kennel Training (Full Training with Boarding)

\$790.00 (Three-Weeks)

Josephine offers a three-week intensive training program at her kennel. Your dog is boarded while being trained on and off leash, obedience commands including *sit*, *stay*, *come*, *down*, *heel* and to obey the word "No". Your dog is trained, while enjoying a home-style daycare. *House training and problem correction guidance is included.*

Reservations are required for boarding. We recommend reservations be made a week in advance for a non-holiday stay and at least a month in advance for a holiday boarding

Important: Proof of current vaccinations is required for boarding (DHLPP, Bordetella, Rabies).

Housebreaking Training

\$350.00 (Two Weeks)

Josephine offers a two-week housebreaking package, which is started at her kennel facility. Your dog is boarded while being trained on acceptable elimination etiquette. Josephine focuses on training your dog **BEFORE** bad habits are molded. Once the basics are laid then the Owner continues with the training at home.

Dog Socialization Training

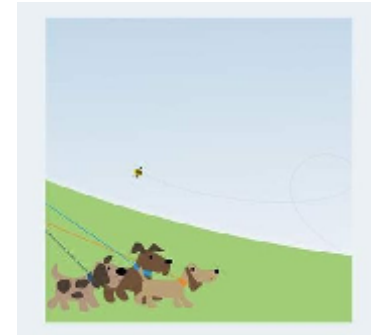

Puppies have a sensitive period for socialization between the ages of 3 and 12 weeks. This means that pleasant exposures to people, other dogs and other animals during this time will have long-lasting influences on the sociability of your dog. Well socialized dogs tend to be friendlier and less fearful. Jo will work with your dog, using positive techniques, for the following situations:

- Fear and/or Aggression with People
- Fear and/or Aggression with Other Dogs
- Leash Aggression
- Adult Dog & Puppy Socialization

Boarding

\$25 per Night

Your dog gets exercise, supervised play time and a home-away-from-home environment in which to board.

Jo uses only Reward-Based Training Techniques for Behavior Modification
